

Project Scope

The prominent Marriott Medical Center in Houston Texas showcases a beautiful atrium skylight and crystal wall with framing. A schedule was created for the replacement of the glass units.

Plan B Engineering designed the interior horizontal netting and debris containment and protection. A specific focus was given to the correct anchoring method for the netting installation using the existing framing.

Plans and renders were created to supplement the engineering design of the netting system.

Project Expertise

- Scaffolding
- Demolition
- Historic Stabilization
- **Overhead Protection**
- Shoring and Bracing
- **Pedestrian Protection**
- Rigging
- Safety and Access
- Hoisting and Runback Platforms
- Temporary Enclosures
- **Netting**
- Jacking
